Day 2 Craft- Sneaky Snake

1. Take the white paper plate and color it however you want.
2. Then with scissors (younger children may need help with this), start at the edge of the plate and cut around in a circle, getting smaller and smaller until you reach the middle. There is an extra plate included if you need to try a second time.
3. With glue, add on your snake's googly eyes in the middle. Feel free to decorate with the included gem stickers. Add the theme of the day in marker.
